Eric,

Will you be able to review the disk soon? I would like your input.

In order to have it be part of my NLG awards submission, I need to post it soon.

OF COURSE, it can always be edited with Version 2.0...

Hi Bob,

I wasn't sure if you were looking for a general overview or a thorough review. The attached document contains detailed commentary, with the more important notes in bold text.

Your presentation is very entertaining and should draw a wide audience.

Eric shared his vast knowledge of Audubon's life during a 2011 phone call. My visit to the Audubon House in Key West that year was enriched by that conversation.

Please let me know if you have any questions.

Best,

--Maureen

Hi Bob,

Eric is about to begin reviewing your presentation and will provide comments in a couple of weeks.

Meanwhile, would you please check the thank you to EPNES at the end and make sure the word "Numismatic" is present?

Best,

--Maureen

Maureen,

I have added "Numismatic" to Thank You slide. I am confident that it was there at some point, but probably disappeared the same time the partial italics appeared!

Thanks for spotting. I will read your other comments on flight tomorrow.

Bob
